

TONIC

IN A NUTSHELL AROMATIC, SPICY AND DRY. DRINK WIT GIN.

We blame the Yeastie Boy. And Doc.

The third of our Good Beer Wheaty Yeastie 2014 'Spoonings' is a credibility-bending brew with the Yeastie Boys and Doctor's Orders that involved putting things in beer that don't belong there, to make a beer to add to drinks that don't belong in beer...

As Doc puts it; "Doctor Yeastie's Tonic is a tonic mixer for your favourite gin. It may look like a pale beer, but it is infact closer to a tonic, bittered with cinchona bark and spiced with juniper berries and dried orange peel.

"Order a Fancy of our Tonic mixer and pair it with a snifter of your favourite gin. Blend, experiment and enjoy."

Not that we're condoning that sort of thing...

STYLE GIN WIT
