

RIPL

IN A NUTSHELL SPICY, CLEAN, SHARP AND BITTER. UNFILTERED LAGER.

India Pale Lagers take the pursuit of cleaner and drier ale ferments to their logical conclusion; by effectively combining the Malt and Hop bill of an India Pale Ale with the relatively neutral fermentation characters of a Lager ferment, they allow the malt and hops to come to the fore.

Our use of a cool ferment with Pilsen yeast and extended cold conditioning results in less yeast character to 'get in the way' of citrusy, spicy Hops and spicier Rye; the intensity of which belie the numbers. If you think of RIPL as a cleaner, sharper, leaner IPA - or as a bitey, fruity, hop-forward Lager - you'll be right either way...
